ANNUAL REPORT

DEDICATION

We are proud to dedicate the 1986 Town Report to Roland C. Goddard, a life long resident of Rindge.

"Rollie" as most know him, has served the community for many years in various roles; as School Board Member for 18 years, Town Auditor for 7 years, Fireman for 27 years, Justice of the Peace for 42 years, Town Clerk for 37 years, and Treasurer for 47 years.

With all those years of civic service, words are less than adequate, however the citizenry of Rindge extend our heartfelt appreciation.

ANNUAL REPORT

IN MEMORIAL

RALPH B. WARD

GERTRUDE WARD

While not life long members of Rindge, Ralph and Gertrude Ward made their mark on our town in a very quiet and unselfish way. Each gave their time and talents in a manner which reflected on their love for the church and the outdoors, the preservation of the past, and a concern for the well being of all persons around them.

Gertrude and Ralph were married at the Cathedral of the Pines on May 24, 1958 and moved to their new home on Goddard Road where they spent their summers and wintered in Florida. Ralph was a veteran of World War II, a life long member and official of the New England Setter Club and an avid sportsman, as was his wife, Gertrude.

Ralph, like Gertrude, was a prime mover in the welfare of the First Congregational Church and Society of Rindge; he as a long time president of the Mens' Club and Gertrude in her untiring efforts as a member of the Restoration Committee with its goal to restore and preserve the old time features of the Meeting House and Church.

It was in this latter interest of both, for the benefit of all citizens of Rindge, that in his Last Will and Testament Ralph established "The Ralph B. Ward and Gertrude Ward Trust", which would provide annual income to the Town for the perpetual care and maintenance of the Church and Meeting House structure. As a result of their generosity and affection for the town, the Trust will be funded by a bequest under the terms of the Last Will and Testament of Ralph B. Ward in an amount exceeding \$200,000. The annual income generated from the principal of this trust shall be used annually to defray the costs for repairs and maintenance of the church-meeting house structure, which costs and expense are presently the obligation of the Town and Church and Society of Rindge as defined under the terms of the agreement between the Town and Church dated September 17, 1965.

By this written word, may the Town of Rindge remember more than the generosity of two of its residents.

The Rindge Town Office Building located on Payson Hill Road was built in 1973 and is the center of activity for Rindge Town Government.

Located on the top floor of the building are the offices of the Board of Selectmen, who meet one evening per week with day to day business of zoning clarifications, assessments and building permits to name a few, handled by an Administrative Assistant.

The office of the Town Clerk and Tax Collector, also located on the first floor, is where motor vehicle registrations and voter registrations are handled along with the clerk's many other duties. All taxes assessed to property owners and residents are also collected in this office.

A large conference room at the back of the building is the scene of most Planning Board and Board of Adjustment meetings and public hearings.

Also on this floor is the office of the Treasurer.

The rear entrance leads to the Police Department, with an information desk and newly constructed office for the Chief and a separate interrogation room.

The small office for the use of the Recreation Department is also located downstairs, and the remainder of the space in the basement area is used for storage.

ANNUAL REPORT

THE STATE OF NEW HAMPSHIRE

TOWN WARRANT 1987

To the inhabitants of the Town of Rindge, in the County of Cheshire, State of New Hampshire, qualified to vote in the Town Affairs:

You are hereby notified to appear at Rindge Memorial School Auditorium in Rindge Center in said Rindge on Tuesday the 10th day of March next, from 8:30 A.M. to 6:30 P.M., to choose all necessary Town Officers and School District Officers for the ensuing year, and to vote on such matters as any appear on the ballot.

The Business Meeting will be called to order at 7:00 P.M. to act upon the following subjects:

ARTICLE 1. To hear and act upon the reports of the Selectmen, Town Treasurer, Town Clerk, Overseer of Welfare, and reports of all agents, committees, and officers heretofore chosen, and act in any way relating thereto.

ARTICLE 2. To raise such sums of money as may be necessary to defray Town Charges for the ensuing year and make appropriations of same.

ARTICLE 3. To see if the voters will authorize the Selectmen and Town Treasurer to borrow money in the anticipation of the collection of taxes for the current year, and to issue in the name of the Town negotiable notes therefore, said notes to be repaid during the current year from taxes collected during the current year.

ARTICLE 4. To see if the Town will vote to allow a discount of 2% on property taxes if paid within ten(10) days of presentation of bill; and 1% if paid within thirty (30) days, and that no discount be allowed on partial payments, and that no discount be allowed after thirty (30) days from date of bill.

ARTICLE 5. To see if the Town will vote that the Selectmen may accept any and all legacies, gifts, grants, and subsidies to the Town in Trust or otherwise by any individual or individuals; and to further authorize that the funds may be expended for the purpose stated, or take any other action relating thereto.

ARTICLE 6. To see if the Town will vote to authorize the Selectmen to sell at Public Auction property acquired by Tax Sale; and to dispose of or sell surplus personal Town Property.

ARTICLE 7. To see if the Town will eliminate Residency Tax. "Shall we adopt the provisions of R.S.A. 72:1-C which authorize any town or city to elect not to assess, levy and collect a resident tax?"

ARTICLE 8. To see if the Town will vote to adopt the provisions of R.S.A. 76:15-A which provides for the Semi-Annual Collection of Taxes; a partial payment of taxes to be due and payable on July 1st, payment of the balance to be due on December 1st, to become effective with the Tax Year commencing April 1, 1987.

ARTICLE 9. To see if the Town will vote to increase the salary of the Tax Collector by \$4500 (Four thousand five hundred dollars) provided that the Town has adopted the provisions of R.S.A. 76:15-A "Semi-Annual Collection of Taxes", to become effective with the Tax Year commencing April 1, 1987.

ANNUAL REPORT

ARTICLE 10. To see if the Town will vote to raise and appropriate the sum of \$48,221 for the purpose of a Reassessment/Revaluation in 1988.

ARTICLE 11. To see if the Town will vote to raise and appropriate the sum of \$1000 for the Constitutional Bicentennial celebration for the Summer of 1987.

ARTICLE 12. To see if the Town will vote to raise and appropriate the sum of \$2500 towards the purchase of 15 KW generator for the Fire Department.

ARTICLE 13. ARTICLE 14. To see if the Town will vote to raise and appropriate the sum of \$15000 to pay for professional and Municipal planning services to assist the Planning Board in revising the Town Master Plan.

ARTICLE 15. Are you in favor of adopting the Phased Development Ordinance proposed by the Planning Board and printed as follows:

Section 1. AUTHORITY

Pursuant to the provisions of the New Hampshire Revised Statutes Annotated 1984, R.S.A. 674:21 the Town of Rindge adopts the following regulation to be administered by the Planning Board in conjunction with the Sub-Division Regulations of the Town of Rindge.

Section 2. PURPOSE

To guide the implementation of major subdivisions in the Town of Rindge so that residents of the Town can be adequately served by community facilities as those services are expanded, and to provide for the current and future housing needs of existing residents and their families, and to insure fairness in the allocation of building permits, and to insure that construction costs to builders are not unduly increased by preventing them erecting or creating several dwellings units as part of one project, and to phase in or control the implementation and development of tracts of land and future subdivisions thereon, at a rate which will be compatible with the orderly and gradual expansion of community services, including but not limited to education, fire protection, road maintenance, waste disposal, police protection and recreation.

Section 3. APPLICABILITY

This article shall apply to all subdivision applications filed with the office of the Planning Board and which request approval of ten (10) or more building lots.

Section 4. PROCEDURE

A. The Planning Board may, in its discretion, establish a phasing schedule of any subdivision subject to the provisions of this article specifying the number of dwelling units per year that can be constructed, and the total number of years involved.

B. In establishing the phasing schedule pursuant to this article, the Planning Board shall take the following factors into consideration:

1. The area of the tracts usable and suitable for residential construction.

ANNUAL REPORT

2. The general character of the neighborhood in which the tract lies, the effect of the plan on the area, and the effect of the plan on the rural character of the town.
3. The relation of the plan to the long-range plans of the Town, as contained in the Town of Rindge Master Plan, if any.
4. The natural terrain of the tract.
5. The impact of the proposed subdivision upon the ability of the Town to provide or expand municipal or community services if it is not phased.
6. The impact of the proposed subdivision upon the ability of the Town to provide or expand municipal or community services if it is phased.

Section 5 LIMITATIONS

In establishing the phasing schedule, the Planning Board shall not restrict the number of dwelling units permitted on the site to less than ten percent(10%) of the number of lots or dwelling units which could be established on the total land area of the tract usable for residential construction under the applicable zoning laws without reference to this article.

Section 6 PERIODIC REVIEW

The operation of this article shall be reviewed by the Planning Board periodically, but not less frequently than once every three years, to insure that the phasing requirements of this article have not become inconsistent with the Town's responsibility and capability in planning developing and implementing the necessary municipal systems and facilities to serve the growing Town and to ensure that the Town is assuming its fair share of housing growth with the Monaadnock Region.

Section 7 AMENDMENTS

This regulation may be amended by a vote at any legal town meeting in accordance with the provisions of New Hampshire Revised Statutes Annotated 1984 R.S.A. 675:3, and as amended.

Section 8 SAVING CLAUSE

The invalidity of any provision of this ordinance shall not affect the validity of any other provision.

Section9 EXPIRATION

This article shall automatically terminate on the fifth anniversary of its enactment unless specifically extended by vote of annual Town Meeting.

BUDGET COMMITTEE REPORT

The Budget Committee is in general agreement with the Town Budget and the money articles in the 1987 Town Warrant.

We feel that the 9.1% increase, mostly in payroll and operating expenses, is again the result of growth in Rindge and the resultant town requirement for increased town services.

We concur with the Selectmen's recommendation to convert to semi-annual tax billing for the town. We believe that the potential savings of approximately \$17,000 this fiscal year makes the best argument for adoption of this initiative.

Respectfully submitted,

ANNUAL REPORT

REPORT OF THE ROAD AGENT

For the Year Ended December 31, 1986

The Highway Department's main projects for 1986 were as follows:

1. The main project was 3800 feet on the College Road. The College Road was resurfaced with 2" of hot top to complete the project after using a Bo-Mag grinder to recycle asphalt in place. We were pleased with the results.
2. We paved 2800 feet in Little Michigan which completed the so called loop.
3. We reconstructed 1700 feet on Hunt Hill. That portion over the railroad tracks, then paved.
4. We shimmed and sealed 10,200 feet on the Old New Ipswich Road.

Due to approved subdivisions on unpaved roads, the highway department was forced to expend monies from the summer maintenance account and the highway project account; which were unbudgeted, resulting in less monies for maintenance on our Class V roads throughout town.

I would like to take this opportunity to thank the Town's people for authorizing the purchase of our backhoe. This year we have installed 540 feet of culvert and have used the backhoe on every one of our main projects as well as in conjunction with every day maintenance.

Respectfully submitted,

Peter J. Anderson
Road Agent

INGALLS MEMORIAL LIBRARY

Report of the Trustees 1986

A bequest from the Ralph Ward estate and a grant from the Robinson Broadhurst Foundation have helped us to expand and vary our services, to maintain the building, and to add to the endowment.

The increasing population of Rindge has placed us in a higher category for approval by the state library association. Accordingly, we are now open four more hours- on Wednesday afternoons. We have begun to broaden the servcies by the purchase of a large television screen, a VCR, a camera recorder, and a small stock of video tapes. We are soon to be inspected for approval by the association.

The major maintenance item has been the installation of a modern furnace, which will probably lessen the fuel bills.

We are sorry that, after long and very effective service, Colonel David Crocker has resigned from the board.

ANNUAL REPORT

REPORT OF THE LIBRARIAN

We do have something new to report. The library now has videocassettes to lend. Most, but not all, of our cassettes are for toddlers and for children up through mid-teens. However, we, hope, as time goes by, to enlarge our collection to serve all age levels.

Cassette viewing has been a welcome addition to our program for the Rindge Memorial School classes. The classes visit the Library at scheduled times for research assignments, book selection or for recreational purposes.

Our Meeting Room has been well used this past year:

The Toddlers Group is still very active and meets every Thursday morning 9:00 to 10:00. All mothers and toddlers are welcome.

A blood pressure clinic, sponsored by the Home Health Care and Community Services, is held the second Thursday of each month from 11:00 to 12:00 noon. The clinic is free and available to all. No appointment is necessary.

The room is used by volunteers here to help prepare and answer questions about income taxes. This is a yearly service and is without charge to town residents.

It is time, once again, to thank all our volunteers who have contributed much valuable time to our Library. We deeply appreciate their efforts.

And we thank our patrons for making the past year a busy, worthwhile one.

Justine Blackall, Children's Librarian

THE RINDGE CONSERVATION COMMISSION

The institution of a Rindge Wetlands Ordinance was the most significant accomplishment of the Conservation Commission (CC) in 1986. The CC and Planning Board prepared and publicized this ordinance which was approved by voters in March. The CC has inspected sites to see that the new regulations have been followed and has advised the Board of Adjustment on request for special exceptions.

CC members attended monthly Tri-Town Groundwater Protection meetings at which experts discussed septic systems, hazardous wastes, NH geology, aquifers, oil tank regulation, etc. As a result of this education, the CC is convinced that unpolluted aquifers are of the utmost importance and is embarking on a campaign for their protection.

The CC arranged for the Cheshire County Conservation District to hold a soil's workshop in Rindge. Members also attended a soil's workshop at the Harris Center and state and regional meetings of conservation commissions.

The CC attended Rindge Planning Board meetings and site reviews, monitored excavations, responded to citizen concerns about wetland violations, successfully petitioned the town to keep for its future use 22 acres of woodland on Rand Rd., 7 acres of which was donated by Mr. & Mrs. Paul Norcross, and partially funded and built a display case for educational brochures at the town office.

The CC sponsored Kevin Menard at Youth Conservation Camp with a scholarship provided by Marge and Ed Stevens.

The CC meets on the 4th Wednesday of each month at 7:00 P.M. in the town office building with the public invited to attend.

RINDGE PLANNING BOARD

In 1986 the Rindge Planning Board held twenty (20) regular meetings for the purposes of formal hearings and preliminary hearings. During these meeting there were thirty (30) formal hearings which created forty-four (44) new lots as well as granting seven (7) technical subdivisions (which do not create additional lots.) Also granted were one lot line adjustment and one road relocation (which resulted in the elimination of one (1) previously approved lot.) One six-unit apartment building was approved. There were also seventy-nine (79) preliminary hearings which included three (3) proposed cluster developments.

The Board made eleven (11) on-site inspections, held ten (10) Site Plan Reviews, and renewed one (1) Earth Removal Permit.

The Board held five (5) Public Hearings regarding zoning ordinance changes, changes, the wetlands ordinance, subdivision regulation changes, and the interim growth management regulation. The Board also held twenty-one (21) work meetings to discuss zoning amendments, subdivision regulation changes, growth management, groundwater protection, a Capital Improvements Plan, and cluster residential development regulations.

In March, 1986 Eric Poor and David Wilson were elected to fill vacancies on the Planning Board. The Board appointed Kim Sands Secretary in August.

The continuing goal of the Planning Board is to update town planning tools by adopting cluster regulation, continuing revision of the subdivision regulations and site plan review regulations, and updating the town Master Plan to reflect the changing needs of the town.

RINDGE BOARD OF ADJUSTMENT

The board met for 12 meetings, went on six site reviews, and various members attended five workshops.

The board granted 12 variances, denied 1 variance; granted 7 special exceptions; 5 of which were a result of the wetland ordinance; 1 special exception was denied; 1 case for an appeal from administrative decision was denied, then granted, then denied and has gone on to Superior Court. Two cases were withdrawn and one case is continuing after the original case had to be reheard after a clerical error.

Member Donald Speckman left in March after many years on the board and William Harper was appointed a permanent member after serving as an alternate. Martha Jones resigned in November. Steven Henrikson was chosen chairman, Donald Butler as vice chairman, William Harper clerk and Jeanne Carguilo as secretary.

ANNUAL REPORT

SELECTMEN'S REPORT

1986 was not uneventful as far as town government was concerned. After thirteen years of dedicated service, Mabel Speckman, our town administrative Assistant, submitted her resignation effective the end of July. While we selectmen regretfully accepted Mabel's decision, we were fortunate to secure the able services of Carole Knight. In July, our most recent elected selectman, Sieglinde Martin, resigned due to her husband's transfer out of state. David Heikkinen, a former chairman of the Board of Adjustment as well as Planning Board member, accepted the appointment until the March 1987 election.

The town's fiscal condition is in excellent shape. We have no long term debt and our January 1, 1987 cash on hand is the highest of record. While our capital reserve accounts still lack sufficient monies to cover depreciation of our town equipment, specifically highway and fire departments, we have endeavored to increase funding in these areas annually. 1986 grants to the town from federal revenue sharing nomies. Through prudent use of this fund over the years, the town currently has about \$88,000 for spending on special projects for 1987.

We would be remiss in not acknowledging the contributions of Monadnock Fabricators for the fabrication and Charles Muhonen for the erection of the steel fire escape at the rear of the Meeting House. Their generosity is most appreciated.

Further commedation goes to two special committees, the Computer Study and the Compensation Committee, both of whose members gave their time and talents in providing much needed council to the Board of the Selectmen.

While we can all take some pride in Rindge's past, our concern has to be the future. As is happening in many towns, growth is stretching our ability to provide the necessary services at a cost which, as taxpayers, we can continue to bear. In an effort to hold down the cost of town government, the "town fathers" are all too often compelled to be, what some might consider, "short sighted". As growth sprawls over Rindge's road system, we will be hard pressed to fund normal maintenance let alone the capital improvements for equipment and road construction. All this further stretches the essential service from our police and fire departments.

We are about at the point of outgrowing our town office facility; so much so that we should immediatedly consider some type of capital improvements which would provide the needed additional space on Payson Hill Road.

Aside from the above mentioned monetary concerns, is an even greater one of stimulating citizenry involvement in town government. We're all too prone to offer lame excuses for not serving. Out of a population of over 3900, Rindge certainly has a wealth of talent to more than fill all of the elected and appointed positions so necessary for good government. Why then do some positions go unchallenged and yes, only filled after a long search and no little amount of arm twisting?

To all those who have served or are presently serving, we extend our utmost appreciation.

REPORT OF THE RINDGE FIRE DEPARTMENT

For the year Ended December 31, 1986

Structure Fires	7	Alarm Investigation	10

L. P. Gas Problems	2	Other	10
Smoke Investigations	4	TOTAL CALLS	<u>226</u>

In 1986 we tied the greatest number of calls ever recorded (226) which was set in 1984. In the year between, 1985, we recorded the second greatest number of calls. We believe this clearly indicates a trend which is contingent with the population growth of the town. Simply stated; as the population of the town goes up, so does the number of calls answered by the fire dept. This increased activity is felt by other town departments as well.

The trend in growth of the town has not yet, nor does it appear to in the foreseeable future, dictate any major changes in the type of apparatus we need to have to provide protection. However, we may be facing a change in the make-up of our personnel. The fire service is placing increasing demands on firefighters who have less time to meet these demands. Today's lifestyles mandate that most families have both the husband and wife working at least one job. At the same time the duties of firefighters are expanding in the areas of fire prevention, inspections, hazardous materials and environmental protection. Add to this the increasing number of calls and you can see that time is a precious commodity.

The most immediate threat we are facing is low daytime strength during the work week. There being little employment in town, most of our firefighters leave town every week day to go to work. To magnify the problem, of the few members who do work in or near town, some are finding it more difficult to leave work except for major calls. This is because employers who were agreeable to allowing their firefighter employees to leave work two or three times per month are now reluctant to allow them to leave two or three times per week. Many of these calls are not of a serious nature but this cannot be determined until firefighters get on the scene and assess the situation.

There is a trend which has been taking place nationwide for several years in "bedroom communities". It is to have a paid day shift during the work week. This shift can be as few as two or three people with one usually being the chief. Most of the work day emergency runs could be handled by two or three personnel. If more help was needed then at that time the on call personnel could be summoned. In addition to emergency runs, these professionals could help with a growing load of inspections and documentation. They could also perform light maintenance on the station and apparatus.

Although a day shift isn't an immediate requirement the need is indicated for the not too distant future. We should all keep our eyes focused in the direction the town is heading.

(A detailed list of offenses is available at the Police Department)

The police and the community are inseparable. Neither can function without the other. From the community the police draw much of their authority and the support necessary to carry out their responsibilities. The community relies on law enforcement performance for its safety and the orderly conduct of its affairs. No effective program to control crime and preserve the public peace can exist without the police and the community joined in the effort.

Obviously, there is much the police officer does that is distasteful to many. Depriving people of their liberty, even by lawful arrests, is rarely regarded as an endearing human act. The intensity of vigorous and penetrating investigations is likely to offend even those persons interviewed though they have no complicity with crime. The urgency and directness of many law enforcement inquiries necessarily fracture the social amenities some people would like to receive. It is not surprising that the actions of police officers in the performance of their duties often arouse criticism. But the officer has no alternative. He must carry out his legal duties. He must enforce the laws of the land so that all can enjoy the benefits of liberty and justice.

Thankful for the support and encouragement of the community we will, with dedication, perseverance, and professionalism, continue to strive to keep our community safe. Together, we can make a difference.

Sincerely,

David J. Collum
Chief of Police

ANNUAL REPORT

RINDGE RECREATION DEPARTMENT

The Rindge Recreation Department has undergone several changes this past year. We have continued to support the youth sports programs through the school system. We have introduced programs for the younger children to allow them to experience sports at an earlier age.

We have had a great deal of cooperation from Franklin Pierce College as well as the cooperation from some community members to see that these programs are a success. Without the support of these individuals, the Department could not offer the variety of programs that it has.

It has been a difficult year to generate interest in the community to become involved with the Recreation Committee. We meet once a month to plan and coordinate activities. What we need are more individuals who can commit themselves to this once a month meeting to help us to generate new ideas and plan new programs for the town. There have been three members over the past year, who do their best to plan, but if we could get several more people involved, we would have a broader base of ideas to work with.

We need more people to "get involved" so we may continue to offer the townspeople of Rindge a variety of activities and programs.

If we can be of any assistance to you, please feel free to call Debbie Jackson at her home, 899-5260. We want to hear from you.

ANNUAL REPORT

REPORT OF COMPUTER STUDY COMMITTEE
1986 - RINDGE

The computer study committee has taken up where it left off last year and continued it's investigation of possibilities for a system for the town of Rindge.

As of last year we had proposed two vendors to keep an eye on and have spent some time following up on those two. Northern Data Systems now goes under the name of Contel Computer Systems their parent company. We see no change in their status with price still toward the upper end of the range. The town of Amherst has been using their system and contrary to the experience of other towns we have contacted has been dissatisfied with their service. The Computer Center has had an apparently successful installation with new software in Peterborough. However, the problem towns which were noted last year are still problems, raising continued questions about their service.

We have found three additional vendors who we feel should be considered for various reasons. Each of these should be invited to demonstrate their equipment and software in our town office and a selection made on the basis of this demonstration and the responses to our questions. In each case there are potential advantages and disadvantages to the somewhat different approaches offered by these vendors. Some of these factors will be discussed after presenting the vendors. The order of presentation in this report does not indicate any relative preference on the part of the Study Committee.

1) Business Management Systems Inc., Dow Academy, Franconia, NH (603) 823-5578. This outfit was selected by Milford after an extensive study, and is also a prime candidate for the town of Jaffrey. The software is written in COBOL and runs on a network of PC-compatible computers (they sell Televideo equipment).

2) Business Data Services, 56 Ridge Road., P.O. Box 129, Deerfield, NH 03037, (603) 463-8367. The hardware in this case is a Burroughs B-25 minicomputer. The software is based primarily on a "fourth generation" database language. The town of Plymouth has had their system including tax billing since late 1984. They have other installations throughout NH without tax billing and in business applications., and their town software is used with appropriate variations in other states.

3) Systems Alternatives, 13 State Street, Montpelier, VT 05602, (802) 229-0823. The hardware here is a DEC Micro-PDP11/53, a fairly new DEC machine. An add-on module is available which will run PC software. The software is all based on a "fourth generation" database language with a compiled BASIC interface. Their tax billing package has been installed recently in Rye, NH and they have town installations in two other states.

One of the ongoing problems of town systems is that they are subject to the external reporting requirements of the State and Federal Governments and these requirements tend to change on an annual basis. This means a continual process of changes to the software. Thus it can be critically important to be able to obtain continuing programming support for a town system. Failure to obtain this support can mean that town personnel are back to generating required reports manually based on computer supplied information.

Most vendors do not supply source code for their software for

ANNUAL REPORT

several reasons. A) As unauthorized person obtaining access to the code can easily duplicate the system and sell it for less cost than the original vendor. B) Another person can modify the programs for whatever reason, after which they might not work properly and the original vendor might be hard-pressed to prove that the problems were caused by the modifications. C) If the original vendor comes out with a modification and sends it to all customers, it would negate the work in the customer made modification. D) The supplier has a good source of continuing business. All reputable vendors protect their customers against the extreme case of business failure by placing a copy of the source code in escrow with a lawyer, bank, etc.

From the point of view of the customer this dependence can present problems if the original vendor develops an excessive workload or has key people leave. At present it appears that both Contel and The Computer Center have developed these problems to some degree. We have heard of no such problems at this point with the other three vendors presented above.

Of the three vendors, Business Management Systems appears to entail the biggest risk for having future problems, as COBOL software will not allow any modification without source code access. There are some add-on software packages which will in some cases allow some things to be done without the source code. On the other hand, Business Management Systems has the most versatile hardware configuration. PC's are now a commodity item, prices dictated by an active market with lots of competition. General purpose software is legion with bargain-basement prices available. The articles on the proposed Jaffrey purchase have made much of the fact that each terminal is an independent computer, able to function if any of the others fail. There is some truth to this, however it should be noted that such a system typically contains one hard disk storing most of the programs and data. Failure of this part of the system would severely limit the useful work which could be accomplished.

One advantage of having the same type of system as Jaffrey would be the software commonality between the two towns which share so much else as a result of their proximity and the school system setup. This could be particularly useful when software for property valuation is considered.

The fourth generation language basis of the other two systems makes them much less dependent on service from the original vendor for program changes. Further, Systems Alternatives has informed us that they provide the source code as a matter of course to all customers. They also supply a modem as part of the system, and can transmit software changes over the telephone lines. It is better in most cases to obtain all changes and updates from the original software vendor, as they should be able to provide the most effective service. However, the problems in the State with other vendors has highlighted the dangers of being completely dependent on any one vendor in the long run. Also note that many of the options provided by a fourth generation language do not have the potential problems noted when the customer attempts to change the source code, and these options can be put into effect by competent office personnel with the aid of the system manuals and some training. This can be particularly useful for special or custom reports and report formats. Report formats are often a part of changing government requirements.

In addition to the above factors, consideration must be given to service costs and hardware expansion. Prices should be obtained from each vendor on service, and on expanding the systems. Final quotes from each vendor should be comparable in number of terminals, storage capacity of the harddisk, and software packages included. We estimate that the hard

ANNUAL REPORT

disk storage has to be a minimum of 20MB (million bytes, or characters) expandable to at least 40 MB. It might well be better to plan on 30-40 MB for the initial system. For the initial installation in Rindge a budgetary figure of \$27000 should be sufficient for any of the above systems with two workstations, basic office software including word processing and tax billing/voter checklist. This price should include installation and training. Plan on \$1400 per year for maintenance, software updates, etc.

ARTICLE 19. (BY BALLOT) Are you in favor of the adoption of the "Wetlands Conservation District Ordinance" as proposed by the Planning Board for the Town of Rindge and reads as follows:
Section 1: General

The Wetland Conservation District is hereby determined to be all surface waters as well as those areas delineated as poorly drained or very poorly drained soils identified by the U.S. Department of Agriculture

Soils Conservation Service, in cooperation with the Cheshire County Conservation District. The Wetlands Conservation District of the Town of Rindge as herein defined is shown on a map designated as the "Wetlands Map for the Town of Rindge." In all cases where the Wetlands Conservation District is superimposed over another zoning district in the Town of Rindge, that district whose regulations are the more restrictive shall apply.

Section 2: Purpose

In the interest of public health, convenience, safety and welfare, the regulations of the District are intended to guide the use of areas of land with extended periods of high water tables.

A. To regulate the development of structures and land uses on naturally occurring wetlands which would contribute to pollution of surface and ground water by sewage or other contaminants.

B. To prevent the destruction of natural wetlands which provide flood protection and natural habitats for wildlife.

C. To prevent unnecessary or excessive expenses to the Town to provide and maintain essential services and utilities which arise because of improper use of wetlands.

Section 3: Use of Wetlands

A. Permitted use of wetlands is any use that does not result in the erection of any structure or alter the surface configuration by the addition of fill or by dredging and that is otherwise permitted by the Ordinance.

B. An application must be made to the Zoning Board of Adjustment for a special exception for any change in the use of the wetlands.

Section 4: Special Exceptions

A. Special exceptions for the undertaking of a use not otherwise permitted in the Wetlands Conservation District which may include the erection of a structure, dredging, filling, draining or otherwise altering the surface configuration of the land may be granted by the Board of Adjustment if it can be shown that such proposed use will not conflict with the purpose and intentions of Section 2. Proper evidence to this effect shall be submitted in writing to the Board of Adjustment accompanied by any necessary permits or State Approvals. If requested by the Board of Adjustment, the application shall also be accompanied by the findings of a review by the Cheshire County Conservation District of the environmental effects of such proposed use upon the wetlands in question. The Rindge Conservation Commission shall receive notice from the Board of Adjustment of any application for Special Exception and shall render an advisory opinion to the Board on such applications.

B. Inaccuracies in the "Wetlands Map for the Town of Rindge" may be corrected by the Board of Adjustment when documented by an on-site investigation and analysis by a qualified soils scientist and approved by the Soils Conservation Service. Any necessary soil testing procedures shall be conducted at the expense of the landowner or developer.

Section 5: Special Provisions

A. No new septic system may be installed closer than one hundred (100) feet to the normal high water mark as determined by the Cheshire County Conservation District of any wetland or surface water.

B. Wetland areas, excluding bodies of water, may be used to satisfy minimum lot area and setback requirements and may be used when applying a residential density factor, provided that the remaining lot area or tract area is sufficient in size and configuration to adequately accommodate all required utilities such as sewage disposal and water supply.

C. Any prior existing non-conforming use of land or buildings on or adjoining wetlands shall be deemed a non-conforming use and when such use is discontinued for one year, such land and/or buildings become subject to the Wetlands Conservation District Ordinance.

Section 6: Enforcement

A. The Board of Selectmen is hereby authorized and empowered to adopt such rules or organization and procedures as are necessary for the efficient administration and enforcement of this ordinance.

B. Upon any well-founded information that this ordinance is being violated, the Selectmen shall, on their own initiative, take immediate steps to enforce the provisions of this ordinance by seeking an injunction to the Superior Court or by any other appropriate legal action.

If any section, provision, clause or phrase of this ordinance shall be held to be invalid or unconstitutional by any court or competent authority such holding shall not affect, impair, or invalidate any other section, provision, portion, clause or phrase of this ordinance.
